PROFESSIONAL EXPERIENCE

Full Stack Developer and Tech Lead | OluStack Consulting | Aug 2021 – Present

- Lead backend architecture, technical decisions, implementation, mentoring, code reviews, and Product collaboration across SaaS products and client solutions.
- Built Node.js/NestJS services and asynchronous integrations using AWS SQS, SNS, Lambda and S3, Redis, BullMQ, RabbitMQ, SQL databases, and MongoDB.
- Replaced synchronous email processing with BullMQ to remove a timing side-channel and implemented Redis/Lua serialized locking to prevent race conditions.
- Own ExploraJP end to end: modular NestJS backend, PostgreSQL/PostGIS, Redis, REST APIs, JWT, idempotency, OpenAPI, observability, and E2E tests.
- Apply AI coding assistants with human review to analyze code, structure specifications, generate tests, review diffs, and document decisions.

Volunteer Content and Learning Materials Monitor | Escola de Computação Solidária (COED) | Sep 2026 – Present

- Produce and edit technical videos, create and review class presentations, and support educational materials, strengthening communication and knowledge sharing.

Full Stack Developer | CroSoftem | Apr 2025 – Apr 2026

- Developed Angular/TypeScript applications and APIs in critical environments; performed mentoring, code reviews, incident investigation, and root-cause analysis.
- Implemented payment integrations and contributed to asynchronous workflows, automated testing, and production stability.

Systems Analyst – Production Support | Lojas Renner S.A. | Jan 2024 – Dec 2024

- Supported high-volume e-commerce applications on Azure, investigating critical incidents, logs, and integrations and coordinating service restoration.

Full Stack Developer | Bluecore.It | Feb 2023 – Dec 2023

- Developed TypeScript applications and REST API integrations for clients across multiple industries, working through Jira-based agile delivery.

Full Stack Developer | PurpleCats – Digital Payments Bank | Mar 2022 – Sep 2022

- Built APIs and interfaces for a microservices-based financial platform covering accounts, cards, PIX, transfers, SQL data, and asynchronous communication.

Additional Experience | Arezzo&Co / Unimed João Pessoa | 2022–2023 / 2025

- Developed Oracle APEX solutions with SQL/PL-SQL and supported Scrum/Kanban delivery, Jira workflows, and cross-functional communication.
